

Tellimer Limited – Junior Economist

Location: London

Type: Permanent

Reports to: Stuart Culverhouse and Patrick Curran

A Bit About Us:

We're a fast-growing start-up building the next generation platform for financial market insights & data. It's our goal to help industry professionals of all kinds find the actionable intelligence they need to make better decisions.

Tellimer Insights is an investment research and data platform, with particular focus on Emerging Markets. Expertise is provided by Tellimer's own in-house team of analysts and 60 other banks, brokers, thinktanks and research providers. Tellimer's team is best known for its deep expertise in Equity, Bond, Investment Strategy and Macroeconomic Research. Tellimer Insights clients include the world largest investment, financial and government Institutions – currently nearly 150 institutions, most of which are household names.

Tellimer delivers its research through the 'Insights Pro' research platform, a next generation, internally developed platform that gives Clients access to our world class research insights and data; via direct emails to clients' inboxes, the device-responsive front end, daily and weekly email summaries and alerts, access to the wider Tellimer network, downloadable datasets, interactions and events, meetings with the IMF, and commissioned and bespoke analyses.

Duties & Responsibilities:

- To provide research assistance on emerging and frontier markets, and global financial market trends, in support of the economics team and help in the production of economic research and strategy reports; in time, the successful candidate will be expected to author and produce their own research
- To help maintain and manage Tellimer's existing macro data products and develop new ones
- Track high-frequency economic data releases and news flow for countries under coverage and provide commentary to clients
- Provide forecasts of key macroeconomic variables for countries under coverage, where appropriate
- Monitor central bank policy meetings, budget statements, and other official communication
- Provide political analysis of countries under coverage
- The successful candidate will be expected, in time, to be able to communicate and present macro themes and investment recommendations to clients and media

Personal Specification:

- Master's degree in Economics, with a sound grasp of monetary economics and open economy macroeconomics, although exceptional recent graduates would be considered
- Some experience operating as a research assistant or junior economist in a global macro-based or emerging market environment would be desirable; probably around 2-3 years' experience
- Solid data handling and analytical skills, including command of Microsoft Excel; econometric skills also an advantage
- Strong understanding of macroeconomics, central bank operations and fiscal policy in emerging markets
- Passionate about emerging and frontier markets
- Confident, meticulous, self starter and able to work effectively in a small team

Location:

London or UK-based. Tellimer operates a flexible Working From Home policy although the candidate will be expected to be able to attend the office where necessary or can choose to be office based if they prefer.

What you'll get from us:

It's safe to say the past 2 years has created a new normal for all of us. At Tellimer, we now operate a flexible working policy with a headquarters in Liverpool Street, London. For this role you will need to be in the office 3 days a week. And did we mention the generous (unlimited) holiday scheme?

Why Tellimer?

At Tellimer, you'll get to be part of an exciting company at a critical stage in its development. You'll have the chance to bring your ideas to the table and be encouraged to run with them, giving you a key stake in a growing business. We'll also be able to offer you:

1. Unlimited holidays
2. Staff equity allocation (LTIP) (after successful 3 month probation)
3. Access to courses & training
4. Private medical insurance & dental

If you are interested in applying for this role please e-mail Melody Pena, melody.pena@tellimer.com
